

“And the surviving remnant of the house of Judah shall again take root downward and bear fruit upward.” Isaiah 37:31 NASB

There is something about the storms and trials of life – that if we will walk with Christ through them – we will come out stronger spiritually, more stable emotionally, wiser financially and our hearts will love more fervently!

Trees that survive drought survive because their roots, of necessity have grown deeper searching for the life giving moisture buried in the soil. When times of spiritual drought come your way, plunge yourself further into the Word of God. Pray on in spite of those feelings – they are temporary at best, lying at their worst. God’s Word is truth. He cannot lie, neither would He lie – “I will never leave you or forsake you.” (Hebrews 13:6).

Seasons change; winds blow the stale away and bring the life giving rains of God’s presence. (Psalm 68:9). The time for fruit is at hand! The tree that has prepared for this moment will of itself naturally produce an abundance of fruit. The tree that has not deepened its roots will not survive the drought; it will only drop its crop when it can no longer support the demands of fruit bearing.

“Being rooted and grounded in Him.” (Ephesians 3:17 – 20).
